

Betania International University offers programs and student support services designed for working adults with varied educational and professional goals. This document reports how the University measures the success of its students, and the results of its founding cohort. Prepared and published on October 12, 2026. Results are reported as of that date.

Mission

At Betania International University we train students to think in an analytical, interdisciplinary way, and we instill an entrepreneurial spirit.

We invest and support innovative scholars who are able to successfully integrate education and training and thus help our students to become exceptional graduates in their respective fields. We strive to convert information into technology for the benefit of society.

We concentrate on educational and research activities directed at meeting the needs of society by making social responsibility and environmental consciousness our priority.

How the University measures student achievement

The University follows each entering cohort and reports how many of its students graduate, are still in their program, or withdraw. These results are reviewed each academic year and the disclosure is updated within 60 days after the academic year closes.

Founding cohort results (entered Fall A 2024)

Program	Started	Graduated	Still in program	Withdrew	Graduation rate
Master of Business Administration	22	20	0	2	90.9%
Master of Science in Healthcare Management	7	4	1	2	57.1%
Master of Science in Hospitality and Tourism	2	1	1	0	50.0%
Bachelor of Science in Business Administration	1	0	1	0	Not yet calculable
Bachelor of Science in Healthcare Management	2	0	2	0	Not yet calculable
Bachelor of Science in Hospitality and Tourism	1	0	1	0	Not yet calculable

Graduates, founding cohort: 25 (Master of Business Administration 20, Master of Science in Healthcare Management 4, Master of Science in Hospitality and Tourism 1).

Definitions

Founding cohort: students who began a program in Fall A 2024 (September 2, 2024), the first term with enrolled students.

Started: students of the cohort who remained enrolled after the 5-day cancellation period and met all admissions criteria, including those who later withdrew.

Graduated: students who have completed all academic requirements of their program as of the reporting date.

Still in program: students of the cohort who have not completed all academic requirements and have not withdrawn.

Graduation rate: students who completed all academic requirements within 150% of normal program length, divided by the number of students who started. Normal program length is 18 months for the MBA, 16 months for the Master of Science programs and 39 months for the bachelor's programs, counted on the academic calendar.

Bachelor's programs: the founding cohort will reach 150% of normal program length in July 2029, when results are expected. Until then a graduation rate cannot be calculated.
